-

EXPERIENCE

Quality Assurance Engineer
Pranshtech Solutions Pvt. Ltd.

May 2024 - Feb 2025

Key Projects:

Textdrip SMS Marketing Software Platform

- Worked on Textdrip – SMS Marketing Software Platform, ensuring high-quality user experience and bug-free deployment.
- Wrote and executed detailed test cases, identified critical bugs, and collaborated with developers for quick resolution.
- Performed regression, functional, and UI testing across browsers and devices, test functional flows, and error handling scenarios.

Lanline Remover – Number Cleaning Tool

- Tested a tool that removes invalid or landline numbers from contact lists before SMS campaigns.
- Verified number validation logic, bulk file uploads, and correct classification of landline vs mobile.
- Checked CSV file parsing, error handling, and export of cleaned contact lists.
- Ensured proper notifications for users and tested edge cases like empty or corrupted files.

Textdrip Connect – Android App

- Tested Android app functionalities such as send/receive SMS, message history, and real-time sync with the web platform.
- Verified background services, notifications, and message delivery accuracy.
- Performed UI/UX validation, installation testing, and cross-device compatibility checks.
- Reported issues with different Android versions and ensured smooth performance on various screen sizes.
